

Event: **Keynote at American Automobile Association Conference**
Date: **June 13, 2007**

"I want to thank Jason for keynoting at our annual conference. His message was powerful and relevant!

He took the time to learn our business prior to the conference and custom-tailored his delivery so our audience could relate to his message. He receives my highest recommendation as a keynote speaker and author. His bestselling books should be a staple in every business library."
