

"Jason Jennings hit a "home run"! His engaging speech on the "five leadership secrets of the world's fastest growing and productive companies" was a huge hit with all the leadership teams in our Asian subsidiaries.

The feedback from our diverse participants was unanimously positive. Jason's research and first-hand experiences with the successful companies referenced in your books brought tremendous credibility to his key messages. It's often difficult to turn "theory" into "practice", but Jason made that leap easy with his adroitly sprinkled real-world examples. The acid test has been that we frequently hear people cite what they heard and internalized during Jason's speech."
